

# THINK YOU HAVE “IT”?

**PARABLE TALENT AGENCY** is a synergistic external agency that is looking for individuals with that “**IT**”, that *magnetism*, that *odylic force*, that *aura*, that *pizzazz*, that ***certain something*** they want to gift the world, the heavens and everything in between. Empowered **individuals** with the will-power, drive and *knowledge destiny* to resonate with **our** core-base and maximally operationalize **our** path going forward into the future.

## OUR CLEAR GOAL:

To take the magic happening *in there* and make that magic happen *out there*.

As an agency **we** have been overseeing, mind sharing and drawing power from some of the brightest stars on the *global platform stage* (GPS) for over twenty years. Now going forward into approaching **our** third decade **we** hope to continue to accelerate **our** process of exponential organic growth and rapid expansion.

**Our** survival strategy as we journey to the next paradigm level?

The alignment of various stars across blue-sky thinking as we cross into and over The Event Horizon.

To apply simply send a video (no longer than 3 minutes) of yourself, explaining your passion, drive and suitability for the role to the email address provided below.
